

BioForum 2010 presents EU “Health Region” Strategy as a chance to support innovative biobusinesses in the Baltic Sea Region

*One of the key components of BioForum 2010 program is conference **presenting overview of biotech potential from Central European countries**. It's a unique opportunity for those who are interested in having an insight into rapidly developing BIOTECH markets from Poland, Hungary, Czech Republic, Slovakia, Lithuania, Estonia and Latvia.*

One of the key speakers will be Professor Dr. **Leonas Grinius** from the Lithuanian Biotechnology Association. The lecturer will present unique challenges and opportunities for the Lithuanian biotech, related to participation in implementation of the EU Baltic sea strategy. The goal of the project is to advance quality of life of the citizens living in Scandinavia and Baltic Sea Region, **promote sustainable regional economic development and foster eco-friendly innovation**.

Information on Central European BIOTECH sector presented during BioForum 2010 will be extremely useful especially for Business Angels, Venture Capitals, Seed Capitals or Investment Funds. It's also good place to establish direct cooperations with pharmaceutical companies, R&D leaders, science representatives, various BioTech and start-up companies.

BioForum 2010 combines trade fairs, conferences, seminars and BioPartnering (direct B2B meetings) to create the best platform for establishing new biobusiness connections in Central European Region. Attendees can participate free of charge after obligatory [Registration on-line](#).

BioForum - Central European Business Forum of Biotechnology & Innovative BioEconomy together with satellite events takes place on **19-21 May 2010 in Lodz, Poland**.
