Andel's Hotel Lodz is the first 4* deluxe design hotel in Lodz with 278 rooms and suites, perfect conference environment, superbly located on the grounds of the Manufaktura. Andel's Hotel Lodz will have its home seat in a former textile mill, carefully renovated under strict adherence to the guidelines of historic building preservation. Perfect surroundings and ambience of the hotel constitute ideal place for meetings, conventions, conferences, business travelers and leisure.

Everything is possible in andel's Lodz Conference Center 7 conference rooms & a ballroom;

They form an ideal place for all types of conferences, seminars, training session and business and private meetings like weddings. Thanks to

a director's room, a simultaneous interpreter's space and a special acoustic system, our ballroom is adapted for top quality concerts, performances, happenings, fairs, fashion shows, even for official presentations of the latest car models (a cargo lift).

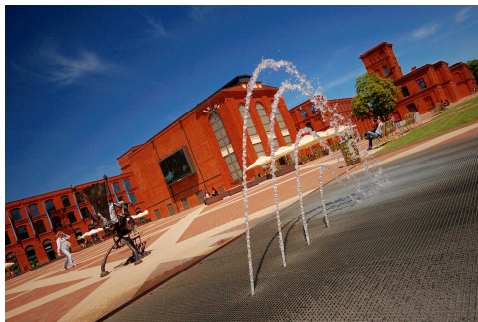

MANUFAKTURA (Lodz) an extraordinary Center with a soul

Available to customers and visitors for almost a year now, set in the buildings of the 19th century textile factory of Izrael Poznanski spreading over 27 hectares of land in the very center of Lodz (second biggest city in Poland) there is the modern cultural-commercial-entertainment center called MANUFAKTURA.

Manufaktura was built in place of the former 19th century Poznanski's factory in Lodz. It is one of the largest revitalization projects in Europe. The Center is a mixture of the past and modernity. Historic red-brick buildings are complimented by modern architecture and design. Manufaktura provides a vast offer of cultural - commercial - entertainment features. Among its attractions are the Factory Museum, movie theater, climbing wall, fitness club, play area for children, bowling alley and a disco. Next year the four star hotel with swimming pool and conference room is going to

be opened. Every week in there is a multitude of events, concerts and competitions. The

Square is vibrant with

life. All this makes Manufaktura a place eagerly visited by families, youths, tourists and businessmen both local and foreign.
